

DOCUMENTS AND THINGS TO BE PRODUCED

Item No.	Description	EPA Response	Notes
1	All documents concerning the sale or potential sale of BGI.	On 11/14/2011, T. McEachern of BGI phoned R. Vanderpool of EPA informing him of the intended sale of BGI to Sensidyne. Later that day, R. Gussman of BGI emailed R. Vanderpool also informing him of the intended sale and requesting information regarding the procedures for transferring BGI's FRM and/or FEM designations to Sensidyne. Correspondence discussing the designation transfer procedure is noted in Item No. 3.	Emails available
2	All documents concerning Thomas Merrifield's resignation from BGI.	On 2/21/2012, R. Gussman of BGI emailed R. Vanderpool of EPA notifying him of the resignation of Thomas Merrifield.	Email available
3	All documents concerning the transfer or proposed transfer of BGI's EPA designations to Sensidyne.	On 11/14/2011, R. Gussman of BGI emailed R. Vanderpool of EPA informing him of the intended sale of BGI to Sensidyne and requesting information regarding the procedures for transferring BGI's FRM and/or FEM designations to Sensidyne. On 11/15/2012, W. Davis of Sensidyne emailed R. Vanderpool requesting the same information. In subsequent emails, R. Vanderpool separately emailed W. Davis and R. Gussman with details regarding the formal designation transfer procedure.	Emails available
4	Documents sufficient to identify any person, including any company or organization, working on the applications identified in Exhibit A, attached.	The companies or organizations associated with the applications identified in Exhibit A are listed in the first column of the Exhibit A table, and EPA has verified the accuracy of this information. Individuals associated with an application are not identified in the application, unless noted as the primary correspondent.	
5	All documents concerning the involvement of Thomas Merrifield in the application or approval process of any of the applications identified in Exhibit A.	The cover letter for this application lists Mr. Merrifield as the BGI point of contact during EPA's review of the application. This application was developed and submitted to EPA during the time that Mr. Merrifield was employed at BGI.	Copy of the application cover letter can be made available.
6	All documents concerning the involvement of Thomas Merrifield in the field testing for any of the applications identified in Exhibit A.	EPA has no documents which mention Thomas Merrifield's involvement in the field testing for any of the applications identified in Exhibit A.	
7	All documents concerning the involvement of Greentech in the application or approval process of any of the applications identified in Exhibit A.	EPA has no documents which mention Greentech in the application or approval process of any of the applications identified in Exhibit A.	

Item No.	Description	EPA Response	Notes
8	All documents concerning the involvement of Greentech in the field testing for any of the applications identified in Exhibit A.	EPA has no documents which mention Greentech's involvement in the field testing for any of the applications identified in Exhibit A.	
9	All documents concerning the involvement of M&A in the application or approval process of any of the applications identified in Exhibit A.	EPA has no documents which mention M&A in the application or approval process of any of the applications identified in Exhibit A.	
10	All documents concerning the involvement of M&A in the field testing for any of the applications identified in Exhibit A.	EPA has no documents which mention M&A's involvement in the field testing for any of the applications identified in Exhibit A.	
11	All documents concerning the involvement of William Felch in the application or approval process of any of the applications identified in Exhibit A.	EPA has no documents which mention William Felch in the application or approval process of any of the applications identified in Exhibit A.	
12	All documents concerning the involvement of William Felch in the field testing for any of the applications identified in Exhibit A.	EPA has no documents which mention William Felch's involvement in the field testing for any of the applications identified in Exhibit A.	
13	All documents concerning Greentech or M&A.	On 8-07-2012, R. Vanderpool emailed M&A asking whether the company would be interested in being added to a database of potential consultants for overseas instrument manufacturers. No response to this email request was ever received from M&A.	Email available
